## NEHU VC calls 'regular' Academic Council meet

### 'Insulted', NEHUTA announces protest rally, dharna today

By Our Reporter

SHILLONG, Oct 11: Defying the mounting clamour for a meeting of the NEHU Academic Council (AC), Vice Chancellor Prabha Shankar Shukla has convened a "regular meeting" of the AC on October 31.

Members of the AC had requisitioned a special/emergency meeting in order to directly address the hurried and unsuitable implementation of the National Education Policy (NEP) 2020 at the under-graduate (UG) level in all affiliated colleges from the session 2023-24 without its permission.

With the deadline given to the VC to convene the special/emergency meeting of the AC ending on Monday, NEHUTA has now decided to intensify its agitation.

NEHUTA will start with a rally/dharna on the university premises at 3 pm on Thursday.

The protest will begin with a gathering in front of the university library, and then there will be a nonviolent march towards the VC's office, where a dharna will be organised.

Meanwhile, NEHUTA president Lakhon Kma responded to the an-

nouncement of a regular meeting by calling it an insult to the AC members.

He made notice of the fact that, in accordance with Regulation RA-5, Clause 13, under Clauses (1) (a) and (2) of Statute 42, they had called an extraordinary/emergency meeting of the Academic Council to discuss the inappropriate implementation of the NEP 2020 at the UG level in the affiliated colleges of NEHU without the approval of the Academic Council.

"We had also communicated to the VC that our focus is not on rolling back the NEP, but rather on fixing the procedural errors in order to proceed for the benefit of the UG students," Kma stated.

"We are not bothered about this regular AC since the VC has the power to convene it at any point in time," Kma stated, accusing the VC of engaging in political gaming.

Since ending the current impasse should have been the VC's first priority, his action shows a lack of care for the students' future, Kma said.

"Given that the first semester exams are scheduled for November, what is the purpose of calling this regular AC

meeting?" he asked.

Kma noted that for roughly two and a half months, the Meghalaya College Teachers' Association (MCTA) had been boycotting all first-semester sessions in protest of the hurried and illegal implementation of NEP.

"However, the VC is still adamant," he stated.

Kma brought out the fact that for the first semester, neither setting nor moderating question papers has been done by NEHUTA members. "According to the NEHU Ordinance, the AC must decide on the model question papers under NEP for UG in order to ensure consistency in the question paper setting pattern for all disciplines. It cannot be moderated if there are no example question papers available for teachers to use to create the questions. Not even the MCTA is involved in creating or regulating the exam questions," he said.

The NEHUTA president also warned the VC of further trouble and hinted that they will "expose all his wrongdoings". "The agitation on Thursday is only the beginning. We will intensify our agitation further since the VC has ignored suggestions made by a majority of the members of the AC," Kma added.

## 'M'laya's \$10 billion economic dream a motivational tool

By Our Reporter

SHILLONG, Oct 11: NITI Aayog Vice Chairman Suman Bery stated on Wednesday that objectives and targets are crucial motivational tools, a day after calling Chief Minister Conrad K Sangma's \$10 billion economic dream "aspirational".

He said Meghalaya must be aspirational in addition to pragmatic. "It's a lofty objective. However, based on what the Chief Secretary showed me yesterday, this ambition has sparked a tonne of extra research to find ways to reach the \$10 billion target," Bery told reporters on the sidelines of his visit to the Mylliem Syiem's office where he was accompanied by KHADC CEM, Pyniaid Sing Syiem.

He claimed that no one could have predicted COVID

of this. Additionally, there is preparing households and shocks of any kind — tornado. That is a necessary aspect to become a \$10 billion economic dream to ensure that you are ready for that may arise, like the COVID did," Bery added.

The NITI Aayog official said Meghalaya government focus on initiative in bringing up projects, such as drinking water, to the remote areas of the state. "It appears that this government has accomplished a great deal in Meghalaya's conditions in the past few years. Many of the vision statements are not necessarily easy to implement, but it is an effort to uplift the school

Decline in quality of education hurts UDP  
By Our Reporter

SHILLONG, Oct 11: The UDP on Wednesday said successive governments have been unable to improve the education sector with many schools, especially in the rural areas, lacking basic amenities and support to the teachers.

Recalling how Shillong used to be a knowledge hub attracting students from across the North East and other parts of the country, UDP general secretary Jemino Mawthoh lamented the sharp decline in the quality of school education in the state capital.

"The government really needs to focus on and invest in education, a priority sector. This includes providing infrastructure and basic facilities," he said.

Citing data, he said many schools in the rural areas have very few students now.

"We want education to grow and motivate the parents and children to come to school but if we are not providing the basic infrastructures, how can we ensure joyful learning for the children? They will be attracted to the schools if all these factors are taken care of," Mawthoh said.

# State must be ready for shocks on way to \$ 10 bn economy: Bery

STAFF REPORTER  
SHILLONG

Vice-Chairman of the NITI Aayog Suman Kumar Bery on Wednesday asserted the need for Meghalaya to deal with "shocks" as part of its preparation to be a 10 billion dollar economy.

Bery told reporters that five years ago nobody would have anticipated Covid pandemic or the Russia-Ukraine War.

"There is also a question of equipping a community and indeed households to deal with shocks be it tornado, floods or whatever as that is part and parcel as we are preparing to be a 10 billion dollar economy," he said.

"(We have) to make sure that if a shock comes along as Covid did that you are prepared for it and I think that local communities are very important in the way that Meghalaya had responded to Covid, which

was a major shock," he added.

Bery also chaired a high-level meeting to discuss the growth and development of Meghalaya with senior government officials in presence of chief secretary DP Wahlang on Tuesday.

He said that the government's decision to make Meghalaya a 10-billion dollar economy is an ambitious goal adding the chief secretary had also informed that it has stimulated a whole body of additional work to identify strategies to get to the

"(We have) to make sure that if a shock comes along as Covid did that you are prepared for it and I think that local communities are very important in the way that Meghalaya had responded to Covid, which was a major shock."

Suman Kumar Bery  
NITI Aayog vice-chairman

10-billion dollar economy. "What I have learnt by serving the prime minister is that goals and targets are important motivational tools and they have to be realistic," he said while adding "When you are looking at a number of indicators it is always easy to find where one state is not doing as well as others... it is the amount of improvement that you should be looking at, but we have indicators of multi-dimensional poverty, we have indicators on health etc but I am not going to make an overall judgment..."

Stating that the NITI Aayog has published many rankings, Bery, however, said he was not in an assessment mission in Meghalaya but a 'get acquainted mission'.

He said that the present government has been very conscious and active in taking many national schemes to the far corners of Meghalaya including drinking water, roads etc.

"There are many achievements. However, those achievements are conditioned by the circumstances of Meghalaya which is that it has a number of vil-

lages, those villages are not necessarily easy to reach, those villages have their own schools which have to be brought to right level or to national standards, institutional deliveries are difficult because of the geographic dimension. So there are a lot of achievements but there is an agenda and I don't think there is any mystery about what the action areas are because this government puts a lot of effort into communicating its plans," he said.

Allaying any misconception about his visit, Bery said, "Please don't think that I am here to judge. I am here to see how Niti Aayog with its own limited resources can be of use and I have to say one reason I came at this time is because the chief minister when we met at G20 indicated how important he believed Niti Aayog was to the progress of the state."

## 'Tribals important cog in development wheel'

Vice-Chairman of the NITI Aayog Suman Kumar Bery on Wednesday said that if the government wants a development strategy that will leave no one behind, it has to worry about its 200 million tribals. Bery, who was on his official maiden visit to Meghalaya and the Northeastern region, visited the office of the Hima Myliem located at the heart of Shillong city.

He was welcomed and felicitated with a traditional shawl 'Ryndia' by the Syiem of Hima Myliem Ainam Manik Syiem and his myntris in the presence of Khasi Hills Autonomous District Council (KHADC) chief Pnyiaid Sing Syiem.

Bery told reporters that Prime Minister Narendra Modi has paid a lot of attention to tribal issues. He also observed that tribal communities are a significant part of India's population but they are not always well-supported by national schemes.

"(Therefore), for Niti Aayog on a national level, not just on a state level, being alert to tribal issues is important because if you want a development strategy that will leave no one behind, then you know you do have to worry about 200 million tribals," he said.

The NITI Aayog vice-chairman also expressed his interest to learn about the roles and powers of the autonomous district councils (ADCs), but said, "I did not prepare myself on the issue of funding but

**BERY stresses on the importance of being alert to tribal issues so that 200 million tribals are not left behind**

ultimately, that is a matter for the state government and not the Union government. But in some ways, decentralised community decision-making is a characteristic of many European countries and if you have a model in Meghalaya, we should cherish and learn from it. That is all I would say."

Asserting that each corner of India is different, Bery said, "We as Niti Aayog are there to serve the states. The prime minister said often and believed that India grows when its states grow and so it is not only a question of growth... (it is also) to understand what inclusive growth means in each part of the country."

He further informed that his visit to Meghalaya was a courtesy visit and it is not an agenda-driven visit. "But it is an opportunity for me to understand the issues faced in the state so that is why I am here," he added.

# NEHUTA stir today against VC's acts

STAFF REPORTER  
SHILLONG

The North Eastern Hill University Teachers' Association (NEHUTA) has decided to intensify its agitation by organising a rally and dharna on Thursday against the alleged "wrongdoings" of the incumbent Vice-Chancellor of the University, Prof PS Shukla.

A dossier highlighting the extent of violations allegedly by Shukla within a span of two years of being in office was also submitted to the President of India and Union Minister of Education for their intervention.

In a statement issued on Wednesday, NEHUTA president Lakhon Kma said that NEHUTA is fighting this vice-chancellor to save NEHU at any cost. "We have decided to organize a Rally and Dharna against the VC. This is a clarion call and all of you are requested to join us with the end goal of our intervention. The demand was made in view of the hasty and inappropriate implementation of NEP 2020 at UG level in NEHU affiliated colleges without the approval of the AC. Contd. p8

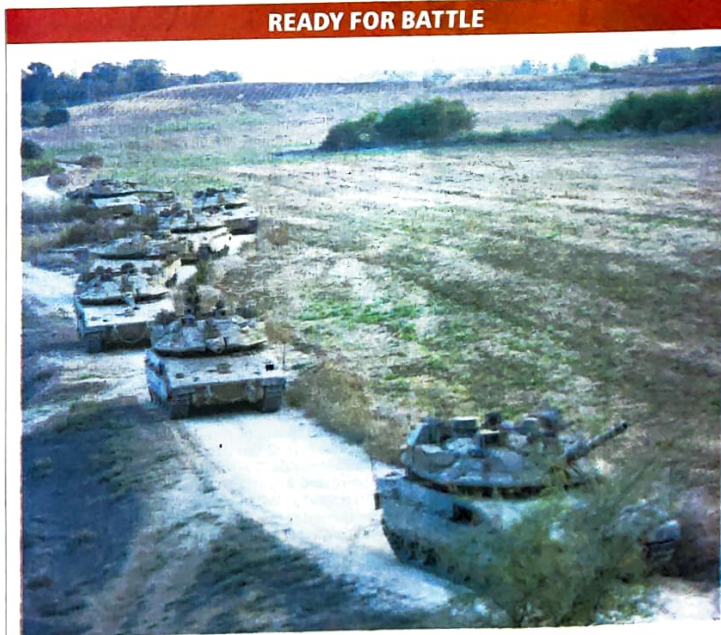

HUSU, NEHUNSA to extend their support and cooperation.

"We are fighting against all his wrong doings and also to protect our legitimate right as members of the Academic Council which the VC has tried to trample. If we allow, it will set a dangerous precedent, emboldening the VC to violate all statutory provisions on different matters concerning our well-being as University fraternity," Prof Kma added.

The president said that the general body meeting of NEHUTA held on October 6 had deliberated on the requisition of the emergency meeting of the Academic Council, which was signed by 100 AC members from Shillong and Tura campuses submitted to the VC on October 4.

He said the association had requested the VC to notify the emergency AC latest by October 9, failing which they will intensify their agitational programmes but the VC had ignored it.

The demand was made in view of the hasty and inappropriate implementation of NEP 2020 at UG level in NEHU affiliated colleges without the approval of the AC. Contd. p8

## Damaged NGH road closed for heavy vehicles

OUR SPL CORRESPONDENT  
TURA

A crucial link road connecting Mendipathar in North Garo Hills to Songsak in East Garo Hills has been temporarily shut down for heavy vehicular traffic from Wednesday due to extensive damage caused by last week's rain in the region.

The Resubelpara division of the PWD announced on Wednesday the halting of all heavy vehicle movement through the road until further orders.

Heavy vehicles coming in from Dudhnoi side to Songsak have been directed to proceed through NH 217 via Dainadubi, Rongeng and onwards to Songsak.

Other vehicles coming in from Berubari (Bajengdoba) and heading to Songsak will have to proceed via NH 127B through Jenglal, Rongrenggiri (Williamnagar) road.

Likewise, heavy vehicles plying from Mendipathar, Resubelpara will have to follow the Dama-Mendipathar road, NH 217 via Dainadubi, Rongeng and up to Songsak and vice versa, stated the PWD order. Contd. p8

### NEHUTA stir today against VC's acts

diplomatic staff, there were reports that India set a deadline of October 10.

Meanwhile, Joly on Wednesday said diplomacy is always better when conversations remain private, underscoring that she will continue to take the same approach when it comes to India.

"Well, I've said it many times, and I'll continue to say it. Diplomacy is always better when conversations remain private. And that's the approach I will continue to take when it comes to India," Joly said while responding to a question during a press conference in Ottawa. *PTI*

dia,  
of talks

"The Meghalaya College Teachers' Association (MCTA), an apex body of teachers of affiliated colleges has been demanding to resolve the issue and hence have been boycotting all 1st Semester classes based on hasty and illegitimately implemented NEP for the past 2.5 months now but the VC is adamant and refused, putting the careers/degrees of thousands of students under questionable legitimacy," Prof Kma said.

He informed that so far all NEHUTA members have abstained from setting and moderating Question (Qs) Papers of 1st semester under illegitimately implemented NEP at UG level for different subjects. Moreover, the Academic Council is yet to decide on the model Qs papers under NEP for

UG, which is required as per NEHU Ordinance so that there is uniformity in the pattern of Qs paper setting across all subjects.

In absence of model question papers, no teacher can set the questions and hence it cannot be moderated.

Even the MCTA is not participating in the setting/moderation of question papers of 1st Semester under illegitimately implemented NEP.

"The unilateral and hasty decision of the VC is an act of infringement on the rights of the AC and violating the established norms and procedures as per NEHU Act, Statutes and Ordinances. He has failed to uphold the democratic norms and the sanctity of the Statutory Body of the University like the Academic Council," he added.

### 14 Noida schools told to shut classes

Noida

The Gautam Buddh Nagar district administration on Wednesday ordered 14 schools to shut their operations with immediate effect after they were allegedly found to be running without any official recognition.

A majority of these schools, which have students enrolled up to Class 12, are in vil lages of Noida, District Inspector of Schools (DIOS) Dharmveer Singh said.

He said a survey of schools was conducted by the Uttar Pradesh government in recent days to find out if any institutes were operating in violation of the Right of Children to Free and Compulsory Education Act, 2009. Singh said as per the law, it is mandatory for any entity involved in imparting formal education to be recognised by state authorities. *PTI*

## NEHUTA prepares damning dossier on Vice Chancellor

HP NEWS SERVICE

Shillong, Oct 11: The war between North-Eastern Hill University (NEHU) Vice-Chancellor Prof PS Shukla reached another level today with the preparation of a dossier that details his faults, at least those that the NEHU Teachers' Association (NEHUTA) has found in him.

Shukla has been under fire, though admittedly still with his supporters, over the way NEHU has gone about introducing the National Education Policy (NEP) 2020 in the state's colleges.

The three-page dossier, signed by NEHUTA president Prof Lakhon Kma and general secretary Marbhador M Khyndeit, listed 13 points against the VC, prime among them the NEP issue.

The NEHUTA leaders said that Shukla went over the heads of the varsity's Academic Council (AC) in pushing through the implementation of the NEP this year. However, it has been the argument of the Shukla camp that the AC had in fact duly endorsed the NEP 2020's implementation.

Many college teachers have been up in arms against the NEP's

introduction this year, saying that their institutions are unready in terms of infrastructure, staffing, etc. The Meghalaya College Teachers' Association (MCTA) have been boycotting first semester classes and "all NEHUTA members have abstained from setting and moderating question papers of the first semester under illegitimately implemented NEP at UG (undergraduate) level".

NEHUTA said that the VC has "exhibited extreme arrogance" in his stubborn refusal to entertain the demand to call an emergency meeting of the AC to resolve the issue. The association said it was not seeking a roll-back of the NEP implementation but to correct "procedural flaws" in the way it was introduced.

Other allegations listed by NEHUTA include the non-conduct of "CAS interview for stage 5 and 6", which has hurt retiring faculty; the appointment of an officer on special duty in the College Development Council against relevant norms; manipulation of minutes of meetings by the VC; and appointment of a Controller of Examinations who lacks

the appropriate experience, which has led to students' futures being thrown into doubt as examination results are delayed.

The sixth point alleges that Shukla gave a job in the VC's office to a non-resident "without any advertisement, screening committee, interview by selection committee nor any terms and conditions of his employment". This has been costing the university Rs 75,000 per month in salary plus other benefits and the said individual has also been allotted university quarters "which is highly illegal". NEHUTA added, "This appears to be an act of nepotism and favouritism against the norms and a violation of Rights to Equality as enshrined in our Constitution. The VC's office already has enough staff and this is a waste of university money which is already very scanty."

Other apparent sins of the VC include, according to NEHUTA, the "bungling" of direct recruitments; delays in appointing statutory officers such as Finance Officer, Registrar and University Engineer; appointment of a Campus Director for NEHU Tura even though such a role does not have

any statutory provisions according to NEHU rules; and lack of seriousness in finding a Chancellor for the university.

NEHUTA also questioned how one Prof G Singaiah had been appointed as the Dean of the School of Economics, Management and Information Science when he is based in Tura while most of the school's work is done in Shillong. There is also a case of alleged misappropriation of Rs 98.69 lakh against Singaiah that has yet to be cleared. Similarly, the association accuses Shukla of protecting the Executive Engineer, Jose Cherian, who has been accused of various irregularities.

Summing up, NEHUTA said that Shukla is "illogical, arrogant and insensitive and ready to violate all well-established procedures" and NEHU rules and is one of the worst VCs in the university's history. He had been given a deadline until October 9 to call for the emergency AC meeting but without heeding it. Therefore, NEHUTA will hold a rally and dharna against the VC starting at the NEHU library at 3pm on Thursday.

## Israeli strikes demolish entire Gaza neighbour as only power plant in territory runs o

Palestinians collect dead from the rubble after the Israeli bombing in Gaza City on W

Jerusalem, Oct 11 (PTI): Palestinians in the sealed-off Gaza Strip struggled to find any safe area on Wednesday, as Israeli strikes demolished entire neighbourhoods, hospitals ran low on supplies and the territory's only power plant ran out of fuel, deepening the misery of a war sparked by a stunning and deadly assault by Hamas militants.

Airstrikes smashed entire city blocks to rubble in the tiny coastal enclave and left unknown numbers

unprecedented retaliation against the Hamas militant group ruling the Palestinian territory after its fighters stormed through the border fence on Saturday and gunned down hundreds of Israelis in their homes, on the streets and at an outdoor music festival.

Since then, militants have continued to fire rockets at Israel, including a heavy barrage at the southern town of Ashkelon on Wednesday. The war, which has
